

Quality of Louisiana Roads

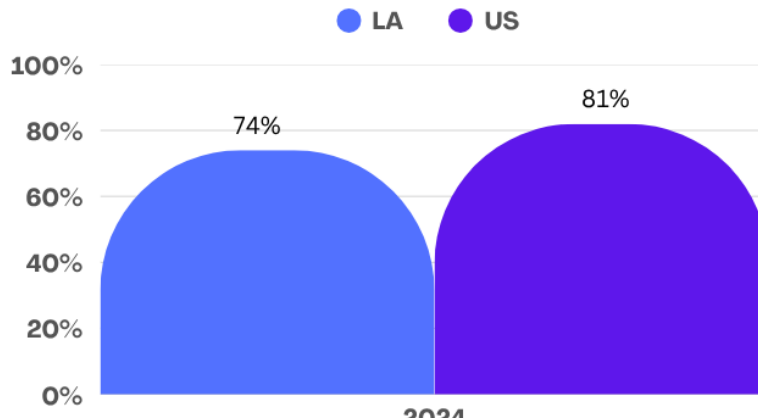

Percentage of roads in acceptable condition

Importance

- Quality roads are important to support commerce, facilitate travel for citizens within the state, and protect the safety of the traveling public.

Year-Over-Year

- 2022: 71%
- 2023: 74%

Quality of Bridges

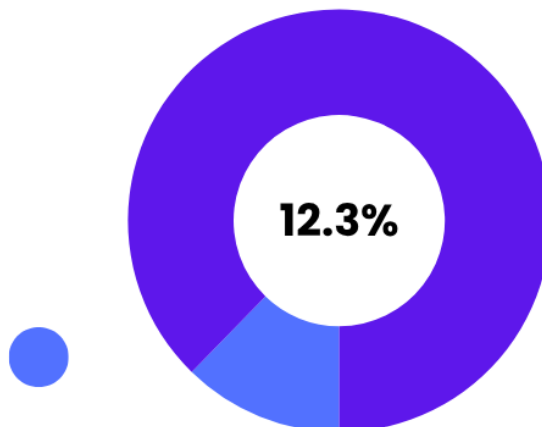

Percentage of structurally deficient bridges

Importance

- Bridges are vital to commerce and personal travel, but structures that are deficient can pose safety risks. More often they cause re-routing of traffic at the cost of both time and money.

Year-Over-Year

- 2021: 12.8%
- 2022: 12.3%
